RE: Docket No. W-04254A-12-0204

Montezuma Rimrock Water Company (MRWC) opposes an evidentiary hearing for the financing dockets. An evidentiary hearing is unnecessary for those dockets and would further delay approval of the financing. Further, an evidentiary hearing is not necessary under Arizona Revised Statute 40-301, et. Seq. The financing approvals relate to necessary plant and facilities for water service. MRWC also opposes consolidation of those dockets in order to obtain ACC review and approval of the financing matters as quickly as possible. Mr. Dougherty's claim that all of the financing dockets stem from the action of the Company to assume Long Term Debt without Commission approvals is incorrect. Similarly, Mr. Dougherty's claim that an evidentiary hearing is necessary because the Company is operating Well No. 4 to provide necessary water flow and pressure for the Arsenic Treatment Facility is incorrect. Well No. 4 is not currently connected to the arsenic facilities and Mr. Dougherty's attempt to further delay financing and construction of the arsenic facilities should be rejected.
